Application for a Licence

When you take up a sport like Martial Art, the first thing you should do is to get a licence. This means that in the unlikely event of an injury you are automatically covered by an insurance policy. (No licence No insurance).

Your licence fee includes third party liability and member to member liability insurance cover.

However please note that dental insurance must be purchased separately.

Dental insurance forms are available from the administrator.

Included in your first licence pack is an **ECKA** Grading Syllabus and a licence book for your grades to be officially recorded.

Please fill in ALL the details below using block capitals please!
